Description

BEAUTIFULLY RENOVATED HOME. This townhome will truly please those with the most discriminating taste. The package here cannot be beat! Entertain with style from this gorgeous kitchen spilling out to the family room and then out to one of the most stunning, private, sunny, easy to care back for backyard and patio that I have ever seen! Truly a knock-out home awaits! The master ensuite is right out of a magazine - so luxurious, like a high-end hotel spa. This is a 3 or 4 bedroom home for the discerning few! A list of features and additions are available but if you want something special, look no further. Did I mention the Wine Room? Spectacular! Furniture package can be purchased separately. Call for your appointment to view. You will not be disappointed.
